ABOUT

I'm a finance professional who genuinely enjoys the detail work — whether that's untangling a messy ledger, navigating a statutory audit, or building a cleaner compliance process. With 5+ years across CA firms and industry, I've worked across accounting, auditing, taxation, budgeting, MIS reporting, and cost analysis. I'm currently pursuing CA and have a parallel interest in tech — I build tools to automate the repetitive parts of finance work.

EXPERIENCE

Business Operations Specialist

Oct 2025 – Present

Elcom Digital Solutions Pvt. Ltd. | Noida, UP

- **Oversee full-cycle financial operations** — including books of accounts, statutory compliance (Advance Tax, TDS, GST, MCA filings), and audit readiness across reporting periods.
- **Lead monthly reconciliations** of bank accounts, vendor ledgers, and GST returns, with ownership of RCM supply identification and ITC eligibility assessments.
- **Collaborate with auditors and cross-functional teams** to ensure accuracy and completeness of financial data, reports, and supporting documentation.
- **Management reporting** — preparing product-wise profitability statements and revenue analyses presented directly to senior leadership & CEO.
- **Manage banking and credit facilities**, including preparation of Stock Statements for Cash Credit accounts and co-ordination with banking partners for documentation compliance.
- **Spearhead process automation initiatives** — designing lightweight tools that reduce manual intervention in billing, data entry, and revenue tracking workflows.
